HWC TUNDISH

HWCT40 & HWCT50

Designed to drain hot water cylinder valves through the safe tray.

SUITABLE UP TO 130°C
HOT WATER CYLINDER TRAY TUNDISH

- Drains cold water expansion and TPR valve drainage pipes with one outlet
- 40mm or 50mm BSP threaded outlet
- Easy to install in HWC safe tray
- Grate with pipe outlet locators meets minimum air gap requirement as per AS/NZS 3500.2
- Grommet with diminishing ID for 20mm and 15mm pipe
- Body and Grate moulded in high temperature rated plastic
- Grate design to contain high pressure valve drainage and allow visual checks
